Lincoln Defined USA Destructive Forces

Nation Can Be Destroyed Within

Abraham Lincoln, whose birthday is observed by a grateful na-tion next week, once said, "If destruction be our lot, we must ourselves be its author." In all probability Lincoln was telling the people then that they must not let any outside force destroy this nation.

Today the Great Emancipator's words have more significance than they ever had before. A very sinister force is using any and every method to destroy. With the use of lies, broken propries subversion subterfue. promises, subversion, subterfuge, espionage, sabotage, infiltration, as well as dupes and traitors among our own people, the ultimate goal of world enslavement moves nearer attainment. As proof, Cuba stands in this very hemisphere. There is much more proof than this. Look at Eastern Europe, Southeast Asia, China and now Africa. South American countries are also prime targets of this unscrupulous force. The overthrow of the United States of America, is, of course, the ultimate goal.

The strength of the nation is

The strength of the nation is the bulwark between accomplish-ment of the purpose of Communism and the continuation of a democratic form of government with its freedoms, liberties and institutions. Each individual who has information, written or oral, affecting the national defense must do his part in this struggle by applying every means avail-able to protect the information entrusted to him.

Security or annihilation is basically the individual's choice, Which shall it be?

Portsmouth Employees Give 338 Pints Of Blood

A total of 338 pints of blood as collected at the American Red Cross's recent campaign at the Atomic Energy Commission's Portsmouth Gaseous Diffusion

The collection was a combination of donations from the Good-year Atomic Corporation em-ployees, as well as the AEC staff members at Portsmouth. The do-nations were prorated through the four counties in the plant vi-

Active pallbearers included fellow-workers Floyd Ludwig, Richard Hawk, James D. Lovin, Willard Crawley, William D. Newman, and Bob Lowery. The entire plant expresses its deepest sympathy. est sympathy to the surviving

ORNL's Satchler Holds Physics Division Seminar

Oak Ridge National Laboratory Physics Division announces as its Friday seminar, "Inelastic Scat-tering of Alpha Particles." Leading the seminar will be G. R. Satchler, from ORNL's Physics Division.

The meeting will be held Friday, February 9, at 3:15 p.m. in the East Auditorium of ORNL's 4500 building, and is open to all interested technical personnel.

ACCEPTING HIS \$1 PATENT APPLICATION letter is Daniel H. Palkowski, center. The presentation was made in Y-12 Plant Superintendent Jordan's office last week. Supt. Jordan makes the presentation at left, as H. G. P. Snyder, a superintendent in the Technical Division looks on from the right. Palkowski's development was a joint effort also, with R. E. Melton, Oak Ridge Gaseous Diffusion Plant.

Clinch River's Waste Not A Hazard — AEC

A recent study has shown that radioactivity waste deposited in the Clinch River nearby is not a hazard, the United States Atomic Energy Commission nounced.

Discussing a study of radioac-Discussing a study of radioactivity waste in the river from near Oak Ridge to the stream's mouth, about 20 miles below, the AEC said it is estimated that from 1943 to 1960 the radioactivity deposited in the river totaled approximately 1,670 curies. "Since the radioactivity is dispersed over the bottom of Clinch River it is not considered to pre-River it is not considered to pre-sent a hazard," the AEC said in its annual report to Congress.

Union Carbide Declares 90¢ Dividend For Quarter

The Board of Directors of Union Carbide Corporation has declared a quarterly dividend of ninety cents (90c) per share on outstanding capital stock to stockholders of record February 9, 1962. The dividend is payable March 2, 1962.

The last quarterly dividend was also for ninety cents (90c) per share paid December 1,

Larson Addresses TSJC's Tonight

The Technical Societies' Joint Council will meet tonight, Wednesday, February 7, at Jefferson

Junior High School auditorium. Dr. Clarence E. Larson, vice president of Union Carbide Nuclear Com-

Nuclear Company and general manager of Oak Ridge

C. E. Larson operations, will be the featured speaker. His subject will be "A Case History of Modern Industrial Development"

A former plant superintendent in Y-12, Larson was also director of Oak Ridge National Laboratory. His association with Y-12 goes back to the early days in 1943 when he was head of the technical staff. He later became director of research and development here in Y-12.

Until his recent appointment to the Oak Ridge position, Larson was vice-president in charge of research for National Carbon Company, another division of another division of Union Carbide.

More \$1 Awards Go To Y-12ers For US Patents

Ralph Levey Takes Seventh Application For Patent Award

Three additional Y-12ers have been added to the growing list of recipients of patent applica-tion awards. They are John F. Gregory, Jr., Ralph P. Levey, Jr., and Daniel H. Palkowski. Greg-ory is in Chemistry Develop-ment: Levey is in Chemistry Development; Levey is in Chemical En-gineering Development; and Pal-kowski is in Production Inspection in the Technical Division.

The Levey-Gregory development was a joint effort entitled: "Method for Preparation of Spherical UO4." Palkowski's effort was also a joint experiment with R. E. Melton, Oak Ridge Gaseous Diffusion Plant. The process was performed at ORGDP and is entitled: "Auto-matic Tube Rolling and Leak Testing Machine.'

John F. Gregory is a native of Barnesville, Georgia. He came to Y-12 August 21, 1950, and holds a BS degree in Chemistry from the University of Chattanooga. A veteran of the United States Navy, Gregory resides with his family at 101 Tabor Road, Oak

This makes the seventh time Ralph Levey has been awarded a \$1 patent application letter. He is a native of New Orleans, and holds a degree in chemical engi-neering from Tulane University. Levey came to Oak Ridge in 1944 at the ORGDP installation, and transferred to Y-12 August 25, 1950. He served with the United States Army from 1944 until 1946, and lives with his family at 354 East Drive, Oak Ridge.

Development Classified

A native of Springfield, Mass., Daniel H. Palkowski came to the ORGDP February 18, 1952. He transferred to Y-12 May 1, 1961. His patent development is de-His patent development is de-scribed as classified. The Patent Office did give some interesting facts concerning the application. It was 70 pages long, consisting of 20 pages of computations and figures. Palkowski holds a degree in Mechanical Engineering from the University of Massachusetts, Amherst, Mass. He served in the United States Air Force from 1941 until 1946, and lives at 108 West Lincoln Road, Oak Ridge.

The Levey-Gregory develop-ment pertains to a continuous process for forming Spheroidal UO4 from uranyl nitrate solution. Basically, the process comprises a series of steps wherein discrete crystals of UO_4 are formed, grown, and filtered under controlled conditions of reagent concentration, acidity, and temperature. The product UO_4 comprises loosely held colonies of UO, crystals which may be readily converted to spheroidal UO2 if desired.

Received \$1

All three men received a dollar with their letters, signed by C. E. Larson, UCNC vice president. This amount is the stipulated sum for a Patent Assignment to the United States of America by Union Carbide Nuclear Company.

and Mrs. E. C. Palmer, 105 Tomlinson Rd., Oak Ridge.
The bride is a 1961 graduate
from Clinton High School, and
the groom graduated from Oak
Ridge High School the same year.
The couple will make their
home at Norfolk Va. where the

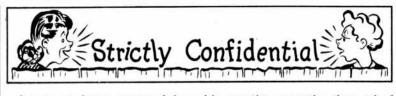

home at Norfolk, Va., where the groom is stationed with the United States Navy.

Chorus Presents Modern Concert

The Oak Ridge Chorus will present their second concert of the season Saturday, February 10 at 8:15 p.m. in the Oak Ridge High School Auditorium. The chorus, under the direction of Franklin Choset, has chosen as the major work Igor Stravinsky's "Les Noces" ("The Wedding"). This unusual work is a cantata for mixed chorus, four soloists, four pianos, and six percussion instruments. The Stravinsky work conveys the excitement of the occasion, the earthy humor, ill-hidden tenderness of the relatives, the heady atmosphere of celebration and ritual feasting.

The other work, not often heard in this section, will be the "Psalm Cantata" by Menachem Avidom, one of the leading con-Avidom, one of the feating contemporary composers of Israeli. Also on the program will be "Adoramus Te, Christe" by Palestrina and four songs by the Madrigal Singers under the direction of Frances Parker.

Tickets may be obtained from any chorus member or at the box office on the night of the per-

A man we know returned from his vacation recently, then asked his boss for some time off to get married. "But you just had two weeks off," protested the boss, "Why didn't you get married then?"

"And ruin my whole vacation?" was the quick response.

Let's see what response we get by gigging reporters in the various ends of Y-12, first in—

INDUSTRIAL RELATIONS

Welcome back into the Fire and Guard Departments to W. G. Hat-field, K. T. Teague, D. H. Patterson, D. E. Bailey and Capt. H. L. Dickenson . . . Also get well wishes are rushed to J. T. Byrum and H. G. Hoskins. Mr. Hoskins is in the Pineville Community Hospital, Pineville, Ky. Wage Standards rolls out the welcome mat for **Janet Wende**.

Art Hines, Benefit Plans, tried to make it to work with influenza, finally gave up. Good wishes to

The Cafeteria has Verna Peckman hit with the bug . . and best wishes to Vena Mae Summitt who underwent surgery re-cently . . . Also to Tommy Goss, ill with measles and influenza!

Draft notices are sorter like women — nobody complains about them until he gets one of

MECHANICAL OPERATIONS

The General Machine Shop is extending deepest sympathies to the **Lester Love** family whose grandfather died recently in Illinois . . . Also to **L. R.** and **L. A.** Shular, whose grandmother passed away recently . . . W. L. Strange's father died February 1, and deepest sympathy to him also . . . J. R. Murph's father passed away last week. He was also the father-in-law of W. S. Helms, and the department's con-dolences to both families.

TECHNICAL

Statistical Services welcomes in newcomer Robert P. Lucke.

Phillip E. Roberts

And here's the pride and joy at the **Eddie Roberts** household. Little Phillip Edmond, of course, was born January 9, at Rockwood. Lively little one, isn't he? Edmond is Eddie's name, too, but nobody would know him by that tag. Eddie's in Radiation Safety.

MAINTENANCE

Paige Huddleston

Now here's a fine little girl in the person of Paige Huddleston, born January 8, on her grandfather Huddleston's birthday. She

Atomic Age Ushers In New Weight Terms

Scientists are using terms such as the megaton and the microgram to measure weight in the atomic age. The megaton is one million metric tons, or 2,240,600,000 pounds. The microgram is one millionth part of a metric gram, which figures out as .000000003527 of an ounce.

Deadline Nears For Y-12's Bowling **Tournament Set For February 24-25**

Secretaries Have **Entry Applications**

The deadline for entering the Y-12 Annual Bowling Tournament is announced as Friday, February 9. No entries may be accepted after 4:30 p.m. of that date. All league secretaries have the entry forms the entry forms.

The cost of entering is \$2.50

per person per event, broken down as follows: \$1.15 prize fee and \$1.35 line fee. All prize money will be distributed in accordance with ABC and WIBC

requirements.

Any employee in the Y-12
Plant, bowling in a sanctioned
league, who has rolled 12 games between August 1, 1961, and last Friday, February 2, is eligible to participate in the tournament.

Set February 24, 25

The tournament will be held the week-end of February 24 and 25, at the Oak Terrace Lanes,

25, at the Oak Terrace Lanes, Oak Ridge. All teams and mixed doubles will roll Saturday, February 24; and singles and doubles Sunday, February 25.

Handicaps will be established by taking 70% of the difference of each entrant's highest league average and 200. League averages will be computed for games rolled before last Friday.

rolled before last Friday.

Teams Roll In Order

Teams must bowl their members in the order listed on the entry blanks. All substitutes must present themselves to the tourna-ment secretary at least 30 minutes before the scheduled bowling time to be certified.

Alleymen are again reminded that the deadline for entering this year's annual tournament is this Friday, February 9.

Basketball Men See Little Play

Only One Game Played Last Week

The Carbide Basketball League saw little action, league-wise, last week as a conflict resulted at one week as a conflict resulted at one of the gymnasiums. One game was played for the second half of the league, however. The mighty Lab Demons, Oak Ridge Gaseous Diffusion Plant's pride in the league, clipped Y-12's Kingston Five to the tune of 38 to 27. The losing Five saw Baker score nine, Eastwood eight, and Captain Bethel Poston seven. For the winning team Bill Slattery the winning team Bill Slattery scored nine, Bennie Crass eight, and Bob Graham and Jim McCall each scored seven.

Two games were forfeited in the first half of the league schedule as the Y-12 Hoopniks took one over B Shift, the ORGDP Peons gained one by forfeit over B Shift.

An interesting sidelight in hea

An interesting sidelight in bas-ketball took place as the Y-12 Atoms were literally trounced in a non-league game by a team that did not organize in time to be scheduled in the league. The Rockwood quintet took the Atoms 59 to 29, displaying mighty fancy work on the hardwood. Jones and Carney led the maverick team on the board with 26 and 16 respectively. Jim George led the Atoms with 10.

Final Payment Should **Have Proper Signature**

A bank received the final payment on an auto loan, accompanied by a note. It said: Dear Sirs—

This should make us even. Sincerely, but no longer yours.

WHAT HAPPENS WHEN DYNAMITE MEETS cold steel? It looks like we're about to find out in this picture as brothers Larry Richards, left, and Bobby, seem about to collide. Actually Larry is an outstanding guard at the University of Tennessee, and Bobby is likewise at Louisiana State University. The brothers fortunately did not have to play each other during their varsity days at school. Bobby finishes at LSU this year, and has already signed a contract with the Philadelphia Eagles. Larry has another year to go on The Hill. Their father, Hugh Richards, is in Y-12's General Machine Shop.

Y-12 Teams Win 3 In D League

Last Half League Play Now Underway

Both Y-12 teams in the D League for Carbide bowlers got started in the second half with a bang last week, each taking three points from opponents. An interesting sidenote on last week's play was that the league divided play was that the league divided into three groups . . the first four, the second four, and the last four teams. The Dry Hides won from the ORINS bowlers; and the Rodders took the Alley Rams for three.

High series handicap scores were taken by the Rodders with 2922. No team took the full four points in the closely fought battles

It's no wonder Caesar's armies did not conquer the world. They were given diluted vinegar often to quench their thirst.

Loyalty For UT-LSU Is Split As Richards Has Sons On Both

Larry, Outstanding Volunteer Guard, While Older Brother Sparks LSU Chinese Bandits

The last time the University of Tennessee and Louisiana State University collided, the Vols eked out a 14 to 13 win over the Chinese Bandits. That was in the 1959 season. For the sake of peace in the household of Hugh G. Richards, Y-12's General Machine Shop, they haven't played since. The reason for divided loyalty is that the Richards family has sons on both football squads.

Guard Larry Richards, a stand-out defense man on the Volunteer line, wears number 76 for the UT team. By strange coincidence Bobby wears the same number for the Bandits down in Baton Rouge. Both Richards lads, of course, played outstanding ball for the Oak Ridge Wildcats.

Vol coaches tag Larry, who is a junior at UT, strong, tough and hard to fool on defense . . . excellent blocker with plenty of speed. Coach Bob Woodruff, who directs the work of the guards speed. Coach Bob Woodruff, who directs the work of the guards and centers, says: "Larry is one of the best blockers on our football team. He is fast, has quick reactions and is strong enough to get the job done." The six-foot two, 190 pounder grabbed a Georgia Tech fumble on their 20-yard line in Knoxville last fall to bring the first blood in the to bring the first blood in the game as he galloped for the initial touchdown.

Only 20, Larry is expected to strengthen Tennessee's line next season, his senior year.

Eagles Sign Bob
The Philadelphia Eagles were quick to sign up Bob down in Baton Rouge after his successful career ended at LSU. Frank (Buco) Kilroy, a scout for the National Football League cham-

Carbide Consumer Ups Glover, Warnell To Vice - Presidencies

Two divisional appointments have been announced by Arthur C. Bryan, president of Union Carbide Consumer Products Company, a division of Union Car-bide Corporation. J. F. Warnell has been appointed a vice president and administrative assistant to the president. Also R. Leigh Glover was named vice president -technology.

Warnell joined Union Carbide in 1933 on the sales staff of National Carbon Company, and served in various capacities in the sales organization before becoming sales manager of consum-er products in 1958. He has been vice president in charge of sales of the Consumer Products Company since 1960 and before that was general sales manager. He is a graduate of Emory Universi-ty, Atlanta, Ga., where he received his degree of BBA in 1930.

Glover also joined Union Car-bide at the National Carbon Company plant in Toronto, in 1935. He has held a number of management positions with the company, including that of plant manager in Toronto and assistant director of research in Cleveland. He moved to the New York office in 1956 as assistant to the vice president and general manager of the company. An alumus of the University of Toronto, he has been general manager in charge of technology for the Consumer Company since 1959.

Principal products of Union Carbide Consumer Products Company are Prestone anti-freeze and car care products, Eveready bat-teries and flashlights, and "6-12" insect repellant. Industrial prod-Carbide include chemicals, plastics, metals, industrial gases, and carbon products.

Data Processing Topic At Accountants' Meet

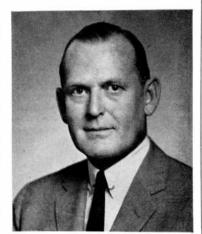

Knoxville - Oak Ridge Chapter of the National Association of Accountants will hold their monthly dinner meeting Tuesday February 20, at the Dwarf Restaurant, on the Clin-

ton Highway. Feature speaker will be Ira Hayes, Special Representative of the National Cash Register Company, Dayton, Ohio. He will speak on "Data Processing."

There is no holiday for security.

"Be careful, may be a trap."

J. F. Warnell

R. Leigh Glover

Edward L. Armstrong, General Machine Shop; William E. Davis, Area Five Maintenance; John T. Parker, Z Area and Dispatching; Glenwood L. Davis, Engineering Mechanics; Kenneth J. Pluhar, Mechanical Engineering; Albert T. Jinks, James C. Terry, Tool Department; Claud J. Cumbie, Research Services; John R. Baker, Production Assay; William J. Foley, Research Services; Julian H. Williams, Special Mechanical Production; Willie F. Ragsdale, General Machine Shop; Othel W. Breedlove, Machine Maintenance.

Grouse Only Open Season In State

The only open season left in the state of Tennessee is the grouse season. This closes Feb-

Experts in noting the closing of the hunting season recommend that guns be cleaned and oiled and properly stored in a hori-zontal position. This will keep the shooting iron in good condition for the next open season.

Big Dance Planned For February 21

The Engineering Division is saluting the Father of our Country with a big dance, planned for Wednesday, February 21. The event is scheduled to begin at 9 p.m. at the Oak Ridge Country Club. Considered the "patron saint" of the engineering profes-sion, George Washington was himself an engineer in his youth. This is one of the reasons for the dance; another one, and perhaps the main one, is that the group just likes to get together for fun. Tickets are on sale throughout

the division, and may be obtained from any one of the following ed from any one of the following ticket committeemen: Gene Barnes, V. C. Barnes, Tudor Boyd, Clarice Cagle, Bill Fleischman, George Ford, Dorothy "Bill" Grizzell, Peggy Hardin, Mildred Lister, Veronica "Ronnie" Stenglein, Jim Turner, or Joyce Williamson

liamson.

John Zullie and his orchestra are slated to play for the big party. Food galore is offered to attendants and is being supervised by Lenora Fleischman. Tudor Boyd is handling the hall and the band activities; Lettie Ault is in charge of secretarial work and the publicity; and bookkeen. and the publicity; and bookkeeping is handled by Bill Fleischman. On the decorating committee are Gene Barnes, Bill Fleischman, Peggy Hardin, Doris Thomas, Jim Turner, Nadine Steele, and Willie Steele.

Only a limited number of tickets are available and "engineers" urge everyone planning to attend to purchase a ticket soon.

Will join car pool from West Acres Drive (Morrell Road—Westland Drive), West Knoxville, to North Portal, straight day. Jerry Westbrook, plant phone 7768, home phone Knoxville, 584-1680 ville 584-1689.

Will join car pool from Cumberland Estates to East Portal, straight day. Charles Whitmarsh, plant phone 7362, home phone Knoxville 588-6383.

Car pool member wanted from Norris to East, North or Central Portal, straight day. Herb Rey-

nolds, plant phone 7213, home phone Norris 7681.

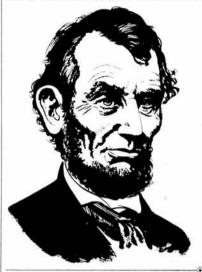

Ride wanted from Powell at Sharp's Road vicinity to West Portal, straight day. W. A. Kramer, plant phone 7515.

Leave On Time — To Get There O.K.

One way a motorist can push his luck is not to take enough time to get places. Speeding, taking unnecessary chances can be often likened to poor planning — not allowing sufficient time to get to one's destination. When you are rushed or try to cover too many miles at one time — that's when an accident can easily oc-

Engineering Division | Lincoln Met Defeat More Often To Salute Washington Than Victory At Nation's Polls

Next Monday, the nation observes the birthdate of one of its most illustrious sons . . . Abraham Lincoln. Emerson said of Lincoln ... "who was at home and welcome with the humblest, and with a spirit and practical vein in the times of terror that commanded the admiration of the wisest. His heart was as great as the world, but there was no room in it to hold the memory of a wrong."

Austrian Chemist To Address ACS

The East Tennessee Section of the American Chemical Society will hold its February meeting in Room 18 of the Oak Ridge Institute of Nuclear Studies Training Building. The time has been set for 8 p.m., Tuesday, February 13.

Featured speaker will be Dr. Herman Flaschka, professor of chemistry at Georgia Institute of Technology, Atlanta, Ga. The speaker is a graduate of the Uni-versity of Graz, Austria. He has served as a scientific co-worker at the Kaiser-Wilhelm-Institut fur Physikalische Chemic in Berlin-Dahlem. He has also served as head of the Analytical Chemistry Department at the National Research Center in Cairo, Egypt. Since 1957 he has been an associate professor of chemistry at Georgia Tech. Dr. Flaschka has published about 140 papers on various subjects in physical and applytical chemistry as well as analytical chemistry as well as theology. He is also author and co-author of several books and co-author of several books and monograph articles and is a member of ACS, Sigma Xi, and the Austrian Chemical Society, he was awarded the Fritz-Feigel-Preis in 1953 by the Austrian Mikrochemical Society. His subject will be "Chelometric Titre" ject will be "Chelometric Titra-tions: Some Problems and Ad-vances."

All members and guests are invited to attend this interesting ACS meeting.

ETERNAL MONOTONY

The earth and its sister planets all swing around their orbits in the same direction. So do the asteroids and most of the moons in the solar system.

To show how much heart the man had, listen to his record: Failed in business in 1831. Elected to Legislature in 1834. Sweetheart died in 1835. Had nervous breakdown

Defeated for Speaker in 1838. Defeated for Elector in 1840. Defeated for Land Officer in

Defeated for Congress in 1843. Elected to Congress in 1846. Defeated for Congress in 1848. Defeated for Senate in 1855. Defeated for Vice-President in

Defeated for Senate in 1858. Yet despair and defeat never

got the best of him. He rose above losses to enjoy greatness few people know. Here are some of his words left behind as a legacy: "Those who deny freedom to

others deserve it not for themselves and under a just God, cannot long retain it.

"Be sure you put your feet in the right place, then stand firm."

the place in which he lives; and so live that the place will be proud of him."

"I can see how it might be possible for a man to look down upon earth and be an atheist. But I cannot conceive how a man could look up into heaven and say there is no God."

"Let us have faith that right makes might; and in that faith let us to the end, dare to do our duty as we understand it.'

"I have endured a great deal of ridicule without much malice; and have received a great deal of kindness, not quite free from ridi-

"If you once forfeit the confidence of your fellow citizens, you can never regain their respect and esteem. It is true that you may fool all the people some of the time; you can even fool some of the people all the time; but you can't fool all of the people all of the time."

"I do not know what my grandfather was; I am more con-cerned to know what his grandson will be."

Actor Hans Conried In Oak Ridge Sunday

As a special added attraction. As a special added attraction, the Oak Ridge Playhouse will present Hans Conried in a program Sunday, February 11, at the Oak Ridge High School. The program will begin at 8 p.m. Tickets are available in advance from are available in advance from Mrs. David Alford.

The actor is a veteran of more than 100 movies. Although he is most active now on television, he got his start on the legitimate stage, and has done thousands of roles on the radio. He is currently playing the voice of Snidely Whiplash on the Bullwinkle Cartoon show. Tickets willl be on sale at the Oak Ridge High School Sunday beginning at 7 p.m. for this special event.

THE TALL MAN

The tallest man ever recorded by medical science grew to be eight feet, 11 inches tall. He died at the age of 22. Man may be following in the path of the dino-saur. It is undeniable that the human race is getting taller, and tallness has an adverse effect on longevity.
